A celebration of the sacred feminine in music and song, « **Heart of Mary** » honours 3 timeless archetypes: **Saint Mary**, **Mary Magdalene** and **Isis**, mythical goddess. **Bradfield** paints their stories with broad, glorious musical strokes, evoking their intuitive free spirits and vibrating with their powerful connection to Mother Earth. From the temples of Egypt through the middle East to the inner gardens of the Soul, we embark on a majestic voyage through 2000 years of history, healing the past and facilitating the change to ultimately restore equilibrium. Featuring the video single **In the Heart of Mary** as well as original interpretations of several liturgical texts in Latin including **Ave Maria**, **Bradfield's** multifaceted, lyrical approach sheds a welcome new light on the return of the feminine energy.
